Comments regarding Teaching Assistant

~~Zain~~ Zain is a very good TA, he explains things well and comes prepared to class for material, maybe could rely on textbooks less and more on chalk board explanation.

Nisal is a very good lab TA, he is very helpful does not hand hold, I like that he asks more difficult questions depending on proficiency. Maybe could

Jenny - is pretty good for a beginner TA, maybe could structure class better for more efficiency and rely on textbook less. a bit less.

Comments regarding Teaching Assistant

Weiwei was helpful in ~~teach~~ informing us of potential errors & things to keep in mind for each lab. Helpful in looking for bugs

Nisal was helpful in assisting with labs and answering questions

Siyang did well in walking the tutorial through ~~syllabus~~, ~~but~~ even though it was difficult given the attendance rate.
